Boosting image retrieval through aggregating search results based on visual annotations <u> Ximena Olivares, Massimiliano Ciaramita, Roelot van Zwol</u>

Ximena Olivares, Massimiliand Catagina, 10000, var. 2000.
October 2008 MM '08: Proceeding of the 16th ACM international conference on Multimedia

Publisher: ACM & Request Permissions

Full text available: Redf (1.23 MB) Additional Information: full citation, abstract, references, index terms

Bibliometrics: Downloads (6 Weeks): 8, Downloads (12 Months): 107, Downloads (Overall): 276, Citation Count: 4

Online photo sharing systems, such as Flickr and Picasa, provide a valuable source of human-annotated photos. Textual annotations are used not only to describe the visual content of an image, but also subjective, spatial, tempora and social dimensions, ...

Keywords: image retrieval, rank aggregation, visual annotations

Scalable packet classification

<u>Florin Baboescu, George Varghese</u> February 2005 | EEE/ ACM Transactions on Networking (TON), Volume 13 Issue 1

Publisher: IEEE Press

Full text available: Pdf (501.73 KB) Additional Information: full citation, abstract, references, cited by, index terms, review

Bibliometrics: Downloads (6 Weeks): 13, Downloads (12 Months): 85, Downloads (Overall): 1056, Citation Count: 9

Packet classification is important for applications such as firewalls, intrusion detection, and differentiated services. Existing algorithms for packet classification reported in the literature scale poorly in either time or space as filter databases ...

3 Scalable packet classification

Florin Baboescu, George Varghese
August 2001 SI GCOMM '01: Proceedings of the 2001 conference on Applications, technologies, architectures, and protocols for computer communications

Publisher: ACM Request Permissions

Full text available: Pdf (242.61 KB) Additional Information: full citation, abstract, references, cited by, index terms

Bibliometrics: Downloads (6 Weeks): 2. Downloads (12 Months): 47. Downloads (Overall): 633. Citation Count: 47

Packet classification is important for applications such as firewalls, intrusion detection, and differentiated services. Existing algorithms for packet classification reported in the literature scale poorly in either time or space as filter databases ...
